The Minority Communities in the
Indian subcontinent, especially the
Muslims, are in a great need for
services in the fields of reformation,
education and welfare. It is the

cause that many organizations and institutions in the east and west of the country have emerged to fill this need, but still need to beg for more.

Due to this, and motivated by faith, love and sympathy for our poor brothers in the country, a few men with sincere hearts founded an institution called as "Maulana Ali Mian Foundation," aimed to the goals mentioned below:

1. Reformation of the Indian societies on the basis of delivering the "duty of promotion of virtue and prevention of vice".
2. Removal of anti-humanity traditions, for example in wedding ceremonies etc., which caused many tribulations in the society.
3. Service of humanity, to provide basic needs for the poor, the needy and destitute people,

and afflicted Muslims and non-Muslims.

4. Construction of primary schools for teaching the basics of life in the areas of ignorance and poverty.

5. Providing rapid first aid to the people undertaken by floods, storms, fires or any type of disaster.

6. Creating schools to provide the latest model and system in the field of teaching and education. It is among the efforts to promote the economic situation of poor classes.

Praise and gratitude be to Allah SWT that He made easy for the men of the institution to perform many services and acts of charity and reformation, of which details are given at the bottom of the article.
